visual silence.
simplicity without technical compromise.
the simplicity of complexity.
**click**
the underside of every worksurface is fitted with a perimeter slot.
a simple clip allows you to connect anywhere along the entire table edge.
worksurfaces and accessories can dock at any point in the slot.

**connect**
almost any configuration is possible.
there are no modular restrictions.

**in footprint, on axis**
legs can be fitted to the corners of desks.
or shared between two worksurfaces.
every leg is height adjustable, from 68.5 to 76 cm.

**support**
single legs, ‘U’ legs, panel legs.
the soft concept

a response to computer related repetitive strain injuries.
a soft interface between the body and workplace.
soft parts offer choice: the key ergonomic requirement.
soft parts can expand the work place dimensions,
define and personalise territories.
click connect anywhere on the perimeter.

writing pad
a desk sized mouse pad
that defines a personal working area.

wrist pad
support for wrists and
a soft interface to the desk edge.

vertical pad
a pinable display surface.

light panel
light panels define space and also
support vertical pads and accessory boxes.

tech pad
a mouse pad that gives support
to the hand, wrist and forearm.

pen tray
a flexible, light alternative
to drawer storage.

writing pad
a desk sized mouse pad
that defines a personal working area.

wrist pad
support for wrists and
a soft interface to the desk edge.

vertical pad
a pinable display surface.

light panel
light panels define space and also
support vertical pads and accessory boxes.
workstorage
workplace + storage = workstorage.
use storage to create spines, spacers and communication points.
connect storage to worksurfaces at any point. there no modular restrictions.

spines
tables connect to either side.
storage access on either side.
doors and back panels are reversible.

spacers
define personal space.
separate working groups.

bridges
worksurfaces suspended between storage ends. desk top storage access.
corridor storage access.
doors and back panels are reversible.

returns
increase worksurface area.
integrate storage with the workplace.

islands
storage at worksurface or counter height.
points of communication and interaction.

receptions
above desk storage.
transaction counters.
wa tech

cables made invisible.

tech panel
the tech panel gives immediate access to power and data. the pivoting door does not intrude into the working area. no visible technology.

cable tray
the position is endlessly adjustable, in height, width and depth. cable trays are reversible and can also be shared between two desks. simply click it into the internal slot.

cpu holder
rotates through 360 degrees. the position is endlessly adjustable, in height, width and depth. simply click it into the internal slot.

cable risers
the panel leg is a vertical conduit with enormous capacity. alternative routes are offered by the modesty panel and cable riser.
worksurfaces
depths: 60, 80cm
widths: 80, 100, 120, 140, 160, 180cm

legs
panel legs, ‘U’ legs, single legs

light panels
height: 39cm
widths: 60, 80, 100, 120, 140, 160, 180cm

technical panels
height: 39cm
widths: 120, 140, 160, 180cm

modesty panels
height: 30cm
widths: 90, 110, 130, 150cm

CPU holders
11, 18 x 46 x 47cm

cable trays
widths: 90, 110, 130, 150cm

cable risers
heights: 30, 50cm
widths: 25cm

soft parts
writing pad, wrist pad, tech pad, vertical pad, pen tray

accessory boxes
depth: 10cm
widths: 12, 30cm

pedestals
BF, BBB, BBF shallow and deep

storage
heights: 72, 107, 142, 177, 212cm
widths: 80, 100, 120, 160, 200, 240, 300, 320cm
door options: hinged, sliding
shelf options: glass, steel

meeting tables
heights: 25, 45, 65, 72cm
widths: 40, 60, 100, 120 cm
